THE PRIME PARTNERSHIP™ · AT A GLANCE

One program, two editions, *one desk.*

How institutions and prediction-market venues partner with BettorToken, on two pages.

VERSION	UPDATED	FOR	NEXT STEP
v2026.11	November 2026	Institutions and venues	A 30-minute call

01 — WHAT BETTORTOKEN IS

A software company. *The AI market maker for sports.*

CHUNKER, our pricing engine, prices every regulated U.S. sports market. BETTOR, our desk of eight AI agents, quotes both sides around the clock and trades directionally when its price says a market is off.

PRICING ENGINE	TRADING DESK	VENUES	SETTLEMENT
CHUNKER	BETTOR	2 live	About 90%
Pricing sports since 2020	Eight AI agents, one desk	Polymarket and Kalshi	of trades settle within about five hours. **Company statement.**

> **PLAINLY** BettorToken and its people hold no financial license or registration. We are not a broker-dealer or investment adviser, never hold or custody partner funds, and give no investment, legal or tax advice.

02 — THE TWO EDITIONS

Institutions and venues, *side by side.*

	FOR INSTITUTIONS Institutional Edition	FOR PREDICTION-MARKET VENUES Venue Edition
THE STRUCTURE	A dedicated vehicle (an SPV) for **one institution**, owned 50/50 with BettorToken. You contribute the capital; we contribute the software and run the desk.	A 0% interest trading line on your own platform, or an affiliate account your venue funds there. BettorToken's software trades it.
WHERE THE MONEY SITS	In accounts in the vehicle's own name. BettorToken never holds or custodies partner funds.	On your platform, used only on your venue. It never leaves. **Trading capacity, not custody.**
WHAT THE DESK DOES	Trades regulated U.S. sports markets inside a Written Mandate you sign off: scope, venues, limits, governance, reporting.	Quotes both sides of your sports markets around the clock, plus directional orders, inside risk parameters you have reviewed.
HOW YOU ARE PAID	A **10% a year preferred return**, paid first each month from settled profits. Losses are recouped before any split, then 80% BettorToken, 20% you.	A revenue share payable solely from settled profits. BettorToken is paid only from the residual split. Either may be zero in any period.
SIZE AND TERM	**$2.5M** minimum. A **5-year** term that renews. No management or platform fee.	Trading lines from **$2.5M** to **$100M**, capped in the agreement.
CONTROL	A shadow run on your mandate, labelled simulated, reviewed before funding (14, 30 or 60 days). Then monthly statements and daily reconciliation.	Nothing loosens without your consent. Every order lands on your platform, your ledger is the record, and both sides have kill switches.

03 — THE INSTITUTIONAL TERMS

Your preferred return *comes first.*

MINIMUM	PREFERRED RETURN	THEN	FEES	TERM
$2.5M	10% a year	80 / 20	None	5 years
One institution per vehicle	Accrued monthly, paid first	After losses are recouped	No management or platform fee	Renews automatically

INDICATIVE **Not an offer.** The preferred return is a distribution priority, not a guarantee. Definitive documents control.

04 — HOW A VENUE PARTNERS

Put the desk on *your own books.*

A trading line or an affiliate account on your own platform, inside limits your venue reviews.

Polymarket	Kalshi	NOVIG	Fanatics Markets
LIVE	LIVE	INTEGRATION PENDING	INTEGRATION PENDING

Regulated U.S. venues only. Your venue keeps its own reporting to the CFTC. A pending venue joins a vehicle's scope only once it is live, and only as the mandate allows.

05 — HOW TO START

Thirty minutes, *then the data room.*

01 **A 30-minute call**
Tim and Dan both join.

02 **Mutual NDA**
After the first call, signed online in a minute.

03 **The data room**
From the link in your confirmation.

04 **Mandate or limits**
A Written Mandate, or your risk parameters.

05 **Shadow run**
Or, for a venue, a first line. Then definitive documents.

For institutions we plan for 8 to 12 weeks from first call to a funded vehicle. No documents are needed for the first call.

Your time zone. No NDA for the first call.

IMPORTANT INFORMATION

Not an offer. This is educational and discussion material. It is not an offer to sell, or a solicitation of an offer to buy, any security or other instrument in any jurisdiction.

Preferred return. The preferred return is a distribution priority payable from the vehicle's settled profits: an order of payments, not a guarantee of return or of capital. Settled profits in a month may not cover it, and distributions may be zero.

Risk. Prediction-market trading involves substantial risk, including the risk of total loss. Past performance does not predict future results. Anything marked Illustrative or Simulated is an assumption shown for format only. It is not a result, a forecast or a commitment.

Records. BettorToken's records are maintained internally. They are not audited or attested by an independent accountant.

Final terms. Final terms exist only in definitive documents reviewed by counsel on both sides, which control in all respects.

Company. BettorToken Holdings LLC is a New Jersey limited liability company with its principal place of business in Ponte Vedra Beach, Florida. It is not registered with the U.S. Securities and Exchange Commission or the U.S. Commodity Futures Trading Commission in any capacity.

Settlement and venues. "About 90% of trades settle within about 5 hours" is a company statement from internal records, not audited. Venue names and logos belong to their owners and show integration status only, not endorsement.
